Software Developer with experience in **web, mobile, and backend development**, specializing in **Flutter, Angular, Laravel, Spring Boot, WSO2 API Manager, and Rancher**. Skilled in building scalable applications, integrating APIs, and deploying enterprise systems. Proven ability to contribute across the full software development lifecycle through hands-on involvement in government and enterprise projects.

Skills

- **Programming & Frameworks:** Flutter, Dart, Angular, Java, Spring Boot, PHP, Laravel, HTML, CSS, JavaScript
 - **API & Cloud:** WSO2 API Manager, Docker, Rancher
 - **Databases:** MySQL, RazorSQL
 - **Tools:** Git, GitLab, Postman, VS Code, Android Studio, Live Helper Chat, Framer, Figma
 - **Languages:** Bahasa Malaysia (Native), English (Fluent)
-

Work Experience

Software Developer | HeiTech Padu Berhad

Intern (Sep 2022 – Jan 2023) | Protégé Trainee (Feb 2023 – Feb 2024) | Contract Staff (Feb 2024 – Present)

Internship

- **Penang Smart Parking (Infotainment Head Unit, IHU)**
 - Designed and developed the web interface prototype for the IHU in the Penang Smart Parking project.
 - Implemented a **QR code login flow**, allowing PSP account holders to authenticate securely via a web page.
 - Gained hands-on experience in **web development and authentication integration** within a smart parking system.

Protégé Trainee

- **Kulim Smart Parking (Backoffice Web)**
 - Contributed to the **Kulim Smart Parking Backoffice Web**, a platform used by the Kulim Municipal Council (MPKK).
 - Developed **new modules and enhancements** to support officer operations, including summons and vehicle management, transaction monitoring, complaints handling, and reporting/analytics.
 - Improved system functionality and usability, supporting daily council operations.

Contract Staff

- **Kulim Smart Parking (Mobile App)**
 - Performed **maintenance and enhancement** of the Flutter mobile app, including bug fixing, updates, and deployment.
 - Ensured smooth app performance and stability for end users.

- **Smart Kubang Pasu (Mobile App)**
 - Contributed to the **development from the ground up** of the Smart Kubang Pasu mobile app using Flutter.
 - Implemented **API integration with Bloc** for state management and interactive features.
 - Collaborated with the backend team to deliver a functional and user-friendly application.
 - **Kulim Smart Parking (Mobile Chatbot)**
 - Designed and developed a **chatbot** using **Live Helper Chat**, enabling FAQ access, interactive responses, and live chat support.
 - **JPJ eLelong (Vehicle Auction System)**
 - Contributed to both **mobile app development (Flutter)** and **backend API development (Spring Boot)**.
 - Developed custom APIs and integrated them with the mobile app for auction functionalities.
 - Worked on **WSO2 API Manager** for API management and deployed the system on **Rancher**.
 - **KWAP Integrated Contribution Management System (iCOMS) – POC**
 - Developed core components for the **Proof of Concept (POC)** of the iCOMS system.
 - Focused on contribution workflows and data handling to demonstrate system feasibility for enterprise requirements.
-

Education

Bachelor of Computer Science (Hons.) | Universiti Teknologi MARA (UiTM), Shah Alam | 2023 | 3.70

Project

Malaysia News Sentiment Analysis During COVID-19 (*Python, Opinion Lexicon, Data Visualization*)

- Developed a **sentiment analysis dashboard** for Malaysian news articles during the COVID-19 pandemic.
 - Implemented **opinion lexicon-based classification** to identify positive, negative, and neutral sentiments.
 - Designed an **interactive dashboard** to visualize sentiment trends over time.
-

Training & Professional Development

- MDEC-INTEL AI Academy (2021)
- UI/UX Design Fundamentals (2023)
- Flutter - Intermediate (2023)
- Chatbot (Live Helper Chat) (2024)
